If your contacts change throughout the lifetime of the project it is your responsibility to confirm any changes, we will not be able to discuss the application with anyone who is not a named contact on the application form.

3-4 Kilometres (1.9 - 2.5 miles)
4-5 Kilometres (2.5 - 3.1 miles)
More Than 5 Kilometres (More Than 3.1 miles)

The following four questions have been designed to capture the key information about your project. The answers will form an essential part of the assessment process.

- **PROJECT NEED**
Why is the project needed in the local community? How is the community demonstrably disrupted by the construction of HS2? How have local people been involved in the project's development e.g. through community consultation? What support does the project have

from the local community and where appropriate other public bodies (for example the local authority, environment agency, wildlife trust etc.)?

Word Count 500

- **CONSULTATION**

Please describe the consultation that has taken place in developing your proposal. Include details of who you have consulted, how you have asked for their views and how the consultation findings have informed the development of your project.

Word Count 300

Tips on how to carry out community consultation can be found [here](#).

- **PROJECT PLANNING**

How have you planned your activity to be successful? The level of detail you need to provide will vary depending on the complexity of the activity you are planning. We want to gain a full picture of what will happen and have assurance that everything has been planned thoroughly. Examples of things for a revenue project include, who will take part, when and where will sessions take place, how long will sessions last? For a capital project, examples include - who will oversee the project, how long it will take, is planning permission required/in place? Additionally, who uses the current or new facility and how frequently. For all projects, how will any risks in delivering your project and the intended outcomes be managed? How will you monitor the project and evaluate its success?

Word Count 750

Tips on how to plan a successful project can be found [here](#).

- **DEMONSTRATION OF DISRUPTION**

The application needs to demonstrate the level of disruption from construction of HS2 on the community or communities that will benefit from the project. Funds are targeted at communities most affected by the construction of the railway. There are two potential types of disruption:

- Effects which have been recognised within Environmental Statements, but which have not been addressed through formal mitigation. All applications must be able to evidence this type of disruption.
- Perceived disruption not identified within the Environmental Statements - this could include a range of community and local economy effects, and anything unforeseen which may emerge through the course of the construction period.

Funds are prioritised for projects that are closest to the route and the most disrupted by construction. Capital work must primarily benefit disrupted communities and also be in a disrupted location that does not exceed 5km from the construction route. Applications for capital work in locations further than 5km are unlikely to be funded.

It is important that you read the Environmental Statement(s) that cover the project area(s) and use the information contained within these to evidence the level of disruption in your application. Links to the HS2 Environmental Statements and subsequent Additional Provisions can be found by visiting the following websites:

- HS2 London to the West Midlands Environmental Statement;
<https://www.gov.uk/government/collections/hs2-phase-one-environmental-statement-documents>
- HS2 London to the West Midlands Additional Provisions;
<https://www.gov.uk/government/collections/additional-provisions-for-the-high-speed-rail-london-to-west-midlands-bill>

Additional information on what construction work is happening in your area can be found on the HS2 local community webpages <https://www.hs2.org.uk/in-your-area/local-community-webpages/> There is also an interactive map which shows what current and upcoming works are being carried which can be found here <https://www.hs2.org.uk/in-your-area/map/#7/52.4530/-1.4880/filter=hs2-stations,hs2-network> Please speak to Groundwork UK or HS2 Ltd if you have any difficulties in navigating these documents.

Your project should be targeting and primarily benefiting disrupted communities. If your project will also benefit people or communities who are not disrupted by the construction of HS2, please note that the % of funding from CEF towards your project total should be proportional to the % of beneficiaries experiencing disruption.

Word Count 750

- **SUSTAINABILITY/LEGACY**

How will the project be sustainable or leave a sustainable legacy? In this section tell us what legacy your project will leave. If a capital project, will sufficient revenue be generated to keep the facility running and well-maintained for years to come (e.g. setting up a long term replacement fund) and who will be responsible for its long term operation and maintenance? If it is a revenue project, how will it continue post any investment? Is the project innovative and can it be replicated?

Word Count 750

Tips on how to ensure your project is sustainable can be found [here](#).

- **Have you started work yet?**

Other than essential project development work, costs and/or fees, has your organisation begun work, or made any binding commitments to begin work, in respect of your project? If you have, please tell us about the aspects of the project to which you are committed. Please be aware that HS2 Ltd cannot fund any activity that has already started.

- **Project Start Date / Project End Date**
- **Other than essential project development work, costs and/or fees, has your organisation begun work, or made any binding commitments to begin work, in respect of your project?**
- **If yes - please tell us about the aspects of the project to which you are committed. Please be aware that HS2 Ltd cannot fund any activity that has already started.**
Word Count 500
- **Does your organisation restrict access/membership on the grounds of race, creed, colour, gender, sexual orientation, age, disability, occupation, religion or political persuasion?**
- **If yes, please tell us the reasons for restricting access/membership:**

Word Count 750

- **If required, please upload a copy of your organisation's freehold/ leasehold document.**
- **Do you have the necessary permissions in place to deliver the project (planning, landlord/leasehold etc.)?**

Please tick those that apply to your project**

Increased community safety
Improved health and wellbeing
Increased community cohesion
Enhanced biodiversity
Improved local environment

Enhanced natural and built heritage
Enhanced access to countryside
Enhanced education and training

- **How will your project contribute to the primary and secondary outcomes that you have selected above? Looking at the outcomes that you have selected, please tell us how your project will contribute to bringing about these changes by telling us how each outcome you have chosen will be met.**

Word Count 750

PROJECT OUTPUTS

We would like you to estimate how many people will directly benefit from your project.

You need to think about who the likely beneficiaries are and how many of them are likely to use or visit your project. It might be helpful to think about how many potential users of the project live in the local area, how many currently use the facility (if existing) and how many are likely to use the new or improved facility created by the project. You may find it useful to look at visitor numbers, local population statistics or similar projects nearby.

For example if you are planning to create a playground you could find out how many under 11's live within walking distance of your project site. However, if a seating area is also part of the project, you might also include parents, siblings and grandparents in your count as well.

- **How many people will benefit from the completed project?**

Please note, it is important that you identify unique beneficiaries and not attendances. For instance, if one person attends 5 sessions in your beneficiary number they should be counted as 1 and not 5. Alternatively, you could identify that your project will benefit X number of people, but that you estimate that X% of these will be the same people.

If your project is a capital project you should tell us how many people will benefit for the 12 month period after the capital work would be completed.

- **Please explain how you have estimated your beneficiary figure?**

Provide a breakdown to explain your beneficiary figures ensuring that your breakdown explains the total number of beneficiaries and also how many are from disrupted communities.

The funds are targeted at communities disrupted by the construction of HS2. If your project will also benefit people or communities who are not disrupted by the construction of HS2, please note that the % of funding from CEF towards your project should be proportionate to the % of beneficiaries experiencing disruption.

If your group is registered for VAT, your expenditure figures should not include VAT that you can claim back (often called recoverable VAT). If you're not registered for VAT your costs should include VAT. Any VAT that you expect to incur but can't claim back (irrecoverable VAT) should be in your expenditure breakdown. Information about VAT is available on the HMRC [website](#)
- **If Yes, please confirm that VAT has not been included in your budget breakdown.**

OTHER SOURCES OF FUNDING FOR YOUR PROJECT

Potential sources of match funding contributions include both cash and non-cash (also known as in-kind).

For more information about match funding contributions please see sections 3.7 of the CEF Guidance & FAQs document.

- **Please detail any other cash funding for your project?**

If you identify that you have secured match funding from another funder, evidence of this offer of funding should be uploaded with your application.

- **Please detail any other non-cash or in-kind funding for your project?**

Please tell whether you have any non-cash or in-kind funding for your project. Please detail the source of this funding, whether it is secured and calculate the equivalent amount.

The equivalent amount is the value of the in-kind contributions. This could be the value of any land or property donated, donations of materials or volunteer time. In the interest of equality, all volunteer time should be valued at the national living wage. Please see section 3.7.2 of the Guidance for the current rate per hour.
